Bob,

the HSA verbally confirmed that. The detainee was prescribed Tylenol. The detainee was not seen or evaluated by an RN, midlevel or physician.

A positive PPD was documented on 7/29/2007 and the detainee did not receive an xray until 8/5/2007. At the time of the incident on 8/12/2007, the detainee was seen and examined by EMTs. There is no documentation to support that he was seen and evaluated by their physician.

[redacted]

The HSA informed me that their staff physician works M - Th, 8 - 5PM, and is on call.

If you need additional information, please do not hesitate to contact me.
